

**GREEN  
CHURCH  
LEWES**

## Open Day Saturday 10th September

Green Church Lewes Open Day is a collaboration between churches in Lewes supported by Churches Together in the Lewes Area and Lewes Climate Hub.

We seek to encourage appreciation and care of God's creation and raise awareness of ways we can all reduce our carbon footprint.

We choose to stand with those most affected by global warming by campaigning for climate justice.

Since the group formed in September 2021 we have initiated community events such as a pre COP prayer walk and vigil and Climate Sunday services.

As a new group, we are a work in progress and value contributions from everyone who would like to partner with us on this journey.

### Climate Justice info, creative activity and petition available at all open churches

*The climate crisis is making extreme weather events, such as droughts, floods and hurricanes more common. The impact can cause communities to lose everything and the damage done can be irreversible. It's time for the biggest carbon polluters to pay up to repair what's damaged.*
